• **Review** Chapter 7 and Read Chapter 8.

• **Do** the following exercises:

  8.7 (if you do not think that you did it correctly in HW 7)

  8.8, 8.11, 8.14, 8.15, 8.20(-c), 8.21(-c), 8.24

Note that "-c" means "all parts except part (c)" - the goal is to defer the sample-size-determination problems to the next HW.
